

# WORKSPACE EUROPE

1ST SLOVAK HIGHER EDUCATION MOBILITY  
CONSORTIUM FOR ERASMUS+ TRAINEESHIPS

## Who are we?

WorkSpace Europe is a consortium of 11 Slovak universities and the 1st and currently the only Slovak higher education mobility consortium for Erasmus+ traineeships accredited by European Commission.

We specialize in providing international experience for students of Slovak and European universities through their placement in companies and organisations for traineeships where they have the opportunity to gain international work experience to start their professional career.

We offer to employers in Slovakia the access to young talented professionals of foreign universities from a wide range of specialisations according to their needs.

## What do we do?

We offer you an opportunity to receive students and recent university graduates from various EU countries to your teams, for a "full time" EU supported work placements.

We take care of professional selection process and all administrative and practical needs of trainees related to their arrival and stay in Slovakia.

Our aim is that foreign trainees are the greatest benefit and the least load for you.

## Why take a trainee through WorkSpace Europe?

- We provide you with students and graduates in the fields according to your needs from a wide network of our partner universities from EU countries.
- Cost-effective human resources thanks to EU supporting programs. You don't pay our trainees a salary.
- No administrative or personnel administration, trainees do not become your employees.
- We ensure professional selection and offer you a candidate who meets your requirements the most.
- We provide you and trainees with our professional support before and during the placement. We take care of all practical needs during their stay in Slovakia.
- Trainees will instead of many years of practical experience offer enthusiasm, commitment and desire to achieve the best in every given opportunity. They may bring you new ideas, expertise, improve the foreign language of your team and help you with access to foreign markets. Accepting trainee can also be an effective way of obtaining a prospective employee.

## Are you interested in a trainee?

1. Send us a job description along with the requirements for trainees.
2. We will carry out the recruiting process with our partner universities and introduce you the most suitable candidates.
3. You can run phone/skype interview with the selected candidates.
4. We will proceed to the contractual part only after your final approval to accept the selected candidate.
